

Step-by-Step Instructions

(PRINT this set of instructions to follow every time you refill your cartridge)

Brother LC61 Black/Cyan/Magenta/Yellow Refillable Cartridges

Unplug, Fill, Re-plug

Items needed: gloves, Black Dye, Cyan, Magenta, Yellow inks, paper towels, review hints & tips and check list.

- 1) Remove the cartridge when it is running low or out of ink.
- 2) Put the cartridge upright on its side with the plug facing up. Remove the color plug at the top. This is your fill hole. Leave the clear plug in the cartridge's air vent hole until you are ready to put the cartridge in your printer.
- 3) Release thru your needle tip the proper color ink. The black cartridge will take black dye ink. Up to approximately 30 mls of ink. Yellow for Yellow, Cyan for Cyan and Magenta for Magenta. All colors will take up to approximately 20 mls of ink.

The black cartridge will take up to approximately 30mls

The color cartridges will take up to approximately 20mls

- 4) Put the syringe needle into the fill hole and S-l-o-w-l-y inject ink until the cartridge is full again. The cartridges are transparent so there is no problem to see when the cartridge is full of ink.
- 5) After the cartridge is full of ink, seal the fill hole with the color plug.
- 6) Unplug clear plug from vent hole and put cartridge back into the printer. **This hole gets plugged prior to the next refill.**

Note: Plug fill-hole with color plug that comes with the empty refillable cartridges. Unplug clear air vent hole plug after refilling and before you use in printer.

7) Replace the cartridge(s) and run 1 - 3 cleaning cycles as per printer instructions.
